

You Can Prevent Illness By:

- Exercising
- Eating well
- Keeping a healthy weight
- Not smoking
- Getting preventive services

Whether it's online, in person, or on the phone, Medicare is committed to helping people get the information they need to make smart choices about their Medicare benefits. You can get personalized help at www.medicare.gov 1-800-MEDICARE (1-800-633-4227).

TTY users call 1-877-486-2048.

MMAP is a free state-wide service that can help you make informed health benefit decisions and explain your options.

MMAP counselors can answer your questions about Medicare, including those about preventive services. The number below will connect you to a counselor at the MMAP office that serves your community.

Revised 12-14-15

Medicare Wellness & Preventive Services

As covered by Part B, under Original Medicare

What's New?

The Affordable Care Act makes many improvements to Medicare. If you have Original Medicare, you will now be able to get many preventive services for free as well as a yearly "Wellness" exam.

The best way to stay healthy is to live a healthy lifestyle and Medicare can help by paying for many preventive services to keep you healthy. Preventive services can find health problems early when treatment works best, and can keep you from getting certain diseases.

Visit www.MyMedicare.gov to get direct access to your preventive health information, 24 hours a day, every day. Here you can find how much and how often Part B under Original Medicare will pay for various services. You can also get a two-year calendar to track your preventive services and print a personalized "on the go" report to take to your next doctor's appointment.

Medicare-Covered Preventive Service	How Often?
Physical Exams	
Welcome to Medicare Physical Exam *	Once in first 12 months of Part B
Yearly "Wellness" Exam *	Every 12 months
